Accommodation Services

Nadrasca Accommodation Services

Nadrasca Accommodation Services is well established and has been providing accommodation services for adults with a disability since 1976.

Shared Supported Accommodation is based on a Group Home model and its aim is to enrich the quality of life of people with a disability who live in them. We provide skilled support to people at every opportunity and actively encourage them in the following areas:

- Participation in household and community activities
- Relationship building with other people
- Choice in all aspects of decision-making that affects them
- Dignity and respect in all aspects of their lives
- Skills that are used and developed to create achievement.

We believe in self-determination, self-advocacy and community inclusion. We are committed to providing holistic support that is person-centred and responsive to residents' changing needs.

Quality service delivery is ensured through regular resident and staff meetings, and discussions with Community Visitors.

Partnership is at the centre of the way we operate – partnership with residents, families, service providers and the community.

We provide staffed accommodation whenever the house is open, seven days a week, fifty-two weeks a year. Staffing levels are determined according to the support needs of the residents.
